**DAIRY MACHINERY INDUSTRIES**

Pray dairy machinery industries are a team of qualified technocrats with an engineering background, supported by skilled technicians and craftsmen. It is monitored by a dynamic Mr. Ankit Patel and Sunil Patel. Under their able leadership, the firm has installed and executed many projects of Milk Processing Plants the capacity ranging from 1000 to 1,00,000 Liters.

We have an experienced supporting hand of Mr. Sunil Patel, who has a wide experience of ten years in this dairy field. His mindset of suggesting exact requirement to the Client and appropriate machinery / equipment for the Plant has proved the Projects quite successful and achieved good results and required needed rated capacity. Due to this, many of our Clients have repeated their orders for expansion of Plant Capacity. We have always lived up to the faith of our Clients.

We have full-fledged Workshop for S. S. and M. S. fabrication, as well as up to date machine shop for precision machining.

We follow N. D. D. B. norms and fabricate the equipment's as per guidance of our qualified engineers. We have separate teams to work on site, for site fabrication, installation of equipment / machinery, piping and plants Commissioning. It is monitored by our engineers and supervisors, who are able to complete the job as per schedule. Also, they are sufficiently skilled and experienced to overcome any unforeseen technical or administrative problem on Site. Due to cordial relationship with the Client on Site, it helps in trouble shooting any difficulty to the satisfaction of the Client.

#### FEATURES OF COMPANY PROFILE :

- Well Established Company developed by team of qualified engineers with an established track record.
- Well Managed Company By Experienced Technocrats
- Undertakes turnkey projects with Project Report making, Capacity Defining and Designing, Supply, Fabrication, Erection and Commissioning of Entire Dairy Unit.
- Leading Manufacturer of Dairy Equipment /S.S. Fabrication in Ahmedabad (Gujarat) India.
- In-house product design & development facility as per the need of the Client.

## WEIGH BOWL SYSTEM

Electronic platform type weighing scale having digital indicator, with SS top and having capacity of weighing of max 600 Kgs to 1000 kg.

## DUMP TANK

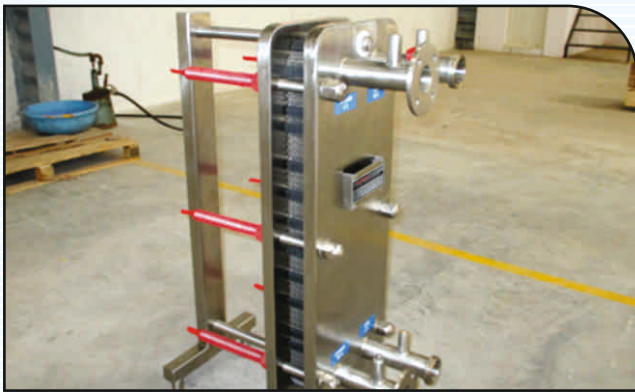

To store milk once received from the farmer. The capacity of the tank will be of 500 lit to 2000ltr. This tank is made up of S.S 304 with an outlet attached to the milk pump.

## CAN WASHER

We are one of the leading organizations, engaged in manufacturing, supplying and exporting high quality Can Scrubber. We manufacture these scrubbers by making use of stainless steel, procured from the renowned vendors of the market.

## MILK CHILLERS

Milk chillers to keep the milk at the temperature ranging below the pasteurization level. These chillers are been fitted with the high efficiency chilling unit and the body is been made out of stainless steel. These milk chillers are been made in different capacities and can be supplied as per the client's specifications and the requirement.

**Capacity range :** - 500 ltrs to 20,000 ltrs

## BULK MILK COOLER

## TABLE BLENDER

## MILK PASTEURIZER

These pasteurization plants are made as per international food processing standards. We offer technically improved range of pasteurization plants for clients from dairies and food processing industry. All our plants are quality approved and then installed at client's site. The pasteurization plants we offer are known for optimum performance, reliability, durability and cost efficiency.

Capacity to hold the liquid 250 l/h to 10000 l/h.  
Material of construction S.S. 304/316

## MILK STORAGE TANK

We fabricate bulk milk storage equipment for dairies. These milk storage tanks are available in different models to suit requirements. The standard models include vertical milk storage tank, horizontal milk storage tank, multipurpose milk tankers etc. The tanks are made using most ideal grade of stainless steel and mild steel, as required. Our range of milk storage tanks finds wide usage in dairies and food processing units.

**Capacity :-** 500 ltr to 25,000 ltr , **Material :-** S.S. 304,316. OUTER S.S.

## BUTTER CHURNER

We are using top class material of stainless steel in conjunction with latest technology, our butter churner is used by the dairy industry. This churner has one opening gate, used for adding butter and its other additives. Operating with a rotary effect, our durable butter churner has swift and smooth performance and can be repetitively used for a very long time, with minimum labor cost. We can also custom develop this butter churner as per the specific requirements and / or specifications of our customers

**Capacity range :-** 250 ltrs to 3000 ltrs , **Material :-** S.S. 304/316 with m.s. or s.s stand

## CHEESE & PANNIER PLANT EQUIPMENT

## GHEE BOILER

We are engaged in supplying extensive range of high quality Ghee Boiler to our valuable customers. These Ghee Boilers are used for boiling ghee. These Ghee Boilers are widely used in various industries for food processing applications. High quality raw materials are obtained at the time of manufacturing these items at our infrastructural unit. We believe in employing advanced machinery to ensure quality and reliability. Our team strives hard to complete all order on time.

### FEATURES OF GHEE BOILER

- Flawless finish
- Ensures optimal performance
- Extensive price range
- High grade raw material
- Quality oriented
- Reasonably priced

### SPECIFICATIONS

- Capacity: 500 KL and 2000 KL
- 304 stainless steel material
- Type: Utensils

## MILK HEATING & AGING TANK

## HOMOGENIZER

## ICE CREAM PLANT

We are specialists at manufacturing Ice Cream Manufacturing plant machinery and provide end-to-end solutions on turnkey basis. These are extensively used in processing industries and can be customized in accordance with client requirement.

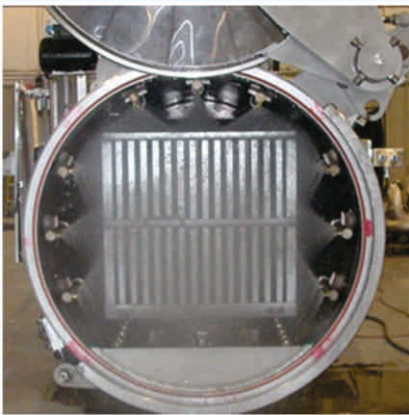

## DAIRY MILK SILO

It use in dairy plant to storage milk.

**Capacity :-** 30,000 ltrs to 1,00,000 ltrs

These are manufactured by utilizing high quality raw materials and innovative technology. These are extremely treasured by our clients for their high performance and long lasting nature. Furthermore, Milk Silos is available at very suitable prices.

### We Offers :

- 500 Bottles Per Batch
- 1000 Bottles Per Batch
- 2000 Bottles Per Batch

### Features :

High Efficient Bottle Sterilization

Material of construction :- M.S./S.S.

## BOTTLE STERILIZER

## ROAD MILK TANKER

We are manufacturing stady and hard wearing road milk tankars using premium quality raw material.
